ActiveScript, with a Solid Backbone of *OmniDocs*,
Newgen OmniDocs is cited as a "Strong Performer" for content platforms by Forrester*

OmniDocs ActiveScript, Newgen Software's newest SaaS cloud-based offering, helps enterprises automate their document-centric processes.

ActiveScript = Business Process = Solution = ActiveScript Driven Automation

- Enterprise repository of all content types
- Centralized and secure storage of documents
- Anytime, anywhere access to documents
- Sample process

INfuse Smart Connected Scanning Solution

The INfuse Smart Connected Scanning Solution offers network-connected capture that sits at the front edge of an organization's process and integrates directly into ActiveScript. Content can be onboarded directly into business processes and real-time acknowledgement received at the point of scanning.

It's smart

- Scan one easy set-up sheet
- Access automated workflows
- No end-user training required
- Finished image files directly from scanner

It's connected

- Continuous monitoring with notifications
- Accurate delivery of data and metadata
- Seamless integration with your applications
- No one-site PC or software required

It's scalable

- Cloud-capable, modern and scalable architecture
- Enterprise-level security
- Tightly integrated
- Remotely managed

Key Partner Benefits

- Remote deployment & centrally management of fleet with no additional IT Infrastructure.
- Low implementation cost. No CAPEX only OPEX.
- Low starting cost - ActiveScript pricing starts from INR 3600/- Per User Per Month (25 User bundle).
- Completely shifts office operations on cloud.
- Decrease dependency on physical documents.
- Helps you onboard Customers / Vendors remotely.
- Staying competitive by reduction in Turnaround Time (TAT) of application.
- Lower TCO due to cloud deployment.
- Business Continuity - Remote Working.
- Two way communication.
- Enterprise grade security.

The end-to-end solution gives partners an opportunity to increase margins, improve customer acquisition, and protect the customer base.

Key Customer Benefits

- 60% savings on storage costs by leveraging the Perfect Page technology.
- Anytime, anywhere access to documents with centralized and secure storage.
- Business Continuity - Remote Working.
- Bi-directional communication keeps you competitive by reducing in Turnaround Time (TAT).
- Completely shifts office operations on cloud.
- Centralized management of your fleet and solution with full control.
- No need for the purchase of additional PCs.
- Quick and easy go-live with little IT involvement and training.

The end-to-end solution enables customers to save cost and time along with increased productivity, better Turnaround Time (TAT), and improved employee satisfaction.

*Newgen a " Strong Performer " in the Forrester Wave™ : Content Platforms Q2 2021
