

Information capture that makes sense

Today's complex data environment needs an intelligent, integrated approach to information capture to help you achieve true digital transformation. Kodak Alaris helps automate your business processes with smart scanning technology that works right out of the box and plays well with your existing software.

- Image-optimizing Perfect Page scanning technology accurately unlocks info from even severely damaged documents
- SurePath paper handling reduces manual steps and misfeeds

Custom solutions from Kodak Alaris and our partners

Wherever you are on the road to digital transformation, Kodak Alaris and our diverse ecosystem of partners can integrate our solutions with your applications to support your strategic goals.

INfuse Smart Connected Scanning Solution

Onboard content from across your networks directly into business processes and systems.

- Finished image files directly from scanner
- Seamless integration with your applications
- Driverless with no PC or additional software required

Software from Kodak Alaris

Our software offers intelligent capabilities that can capture, convert, analyze, and deliver your data directly to a business process.

Kodak Capture Pro Software

A great choice for both centralized and distributed high-performance scanning environments:

- Flexible and powerful batch capture, perfect for BPOs and centralized mailrooms
- Deliver to databases and applications, including Enterprise Content Management (ECM) systems and Microsoft SharePoint Online (Office 365)
- Dedicated workstation-based software ensures security and reliability—no reliance on internet connectivity for scanning and processing
- Enhance productivity with advanced indexing capabilities and cut data-entry time by 50%
- Available as a 1-year subscription in addition to existing perpetual licensing options*

*Not available as a service on Auto Import Edition

Kodak Info Input Solution

A web-based and mobile capture application that is easy for workers to implement and use. Ideal for scanning across departments and enterprises with advanced remote capture capabilities.

- Enables easy information capture from scanning, smart devices and digital files (including email) from one application
- Maintains security and capture of business critical information via an app on a mobile device
- Perform classifications without barcodes and extraction (OCR/ICR/OMR) from within your current applications
- Connects to Enterprise Content Management, Enterprise Resource Planning, Business Process Management, and workflow solutions
- Available as a 1-year subscription in addition to perpetual licensing options

Smart Touch technology

Eliminate complicated multi-step scanning processes with one-touch simplicity. Configure up to 20* different functions to fit your specific scanning needs and quickly perform common scanning tasks. Smart Touch is available via free web download for most of our scanners.

- Custom configuration that can be changed as business needs grow
- Flexible file creation options (such as PDF, sPDF, Microsoft Word, TIFF, JPEG, BMP)
- Automatically send the file to desired location (network folder, email, cloud service and more)
- Results in consistent file naming and delivery for ease of doing business

* Available on S2000 Series, S3000 Series, and S2085f. All other models with Smart Touch allow for up to nine pre-configured job set-ups.

Services from Kodak Alaris

Our team's comprehensive knowledge of products and solutions, combined with a keen understanding of your organization, helps you harness the power of big data to make your capture workflow more productive and information management more impactful.

- Expert repair and maintenance services to optimize uptime and productivity
- Highly responsive, world-class field engineers and remote support experts who know your equipment and workflow
- Flexible service plan choices, value-added professional and managed services, and much more
- MPS Capture Agent from Kodak Alaris adds value for MPS developers, dealers, and customers and enables synergies with MFPs
- Scanner Manager Tool and Scanner Manager Finder enables you to discover, extract, and share scanner data

9.5/10
