Take the Complexity Out of Forms Processing

Every form is the beginning of a business process—one that should run as quickly and efficiently as possible. But data chaos can cause delays and inefficiencies.

Here's how Alaris IN2 Ecosystem information capture solutions take the complexity out of forms processing.

- Handling and transporting paper documents is costly and slow
- Errors and rework lower productivity, frustrate customers, and delay service

- Capturing data from documents as soon as they're submitted gets information into business processes fast and at lower costs
- Intelligent capture immediately detects data errors so they can be corrected on the spot

Think of handling an insurance claim...

Today's process is time-consuming—gathering claim information from the customer, along with supporting documents like photos and estimates—and there's a lot of room for errors. With the Alaris IN2 Ecosystem, information capture happens wherever it's needed, and information is instantly and securely routed to where it's needed next.

1 The Insurance Agency

On -the-spot information capture means no re-entering accident information; fast claim processing makes a great customer experience

- ★ **Web-based capture with one-touch** scanning lets branch office staff capture and send claim information to claims processing
- ★ **OCR/OMR** extract data from the customer's completed paper claim form, so no re-keying is needed
- ★ **Intelligent Exception Processing** catches errors on claim forms so they can be fixed while the customer is there

2 On Location

The agent saves time by attaching damage photos to claim forms on their smartphone and sending instantly to claims processing

- ★ **Mobile solutions from Alaris** allow a smart device to attach images to captured information and associate them with the right records

3 Central Office

Back-office staff can be more productive with instant access to accurate claim information, reducing rework and building customer loyalty

- ★ **Alaris Perfect Page** enhances images for accurate information capture
- ★ Alaris **Capture Pro** Software instantly delivers the right data and documents to the right people and processes
