Software from Kodak Alaris

Our software offers intelligent capabilities that can capture, convert, analyze, and deliver your data directly to a business process.

Kodak Capture Pro Software

A great choice for both centralized and distributed high-performance scanning environments:
• Flexible and powerful batch capture, perfect for BPOs and centralized environments
• Delivers to databases and applications, including Enterprise Content Management (ECM) systems and Microsoft SharePoint Online (Office 365)
• Dedicated workstation-based software ensures security and reliability—no reliance on internet connectivity for scanning and processing
• Enhance productivity with advanced indexing capabilities and cut data-entry time by 50%

Available as a 1-year subscription in addition to existing perpetual licensing options*

*Not available as a service in Asia Import Edition

Driverless with no PC or additional software required

Seamless integration with your applications

Available as a 1-year subscription in addition to perpetual licensing options*

*Available on S2000 Series, S3000 Series, and S2085f. All other models with Smart Touch are available via free web download for most of our scanners.

Custom solutions from Kodak Alaris and our partners

Whenever you are on the road to digital transformation, Kodak Alaris helps automate your business processes with smart scanning technology that works right out of the box and plays well with your existing software.

• Image-optimizing Perfect Page scanning technology automatically unlocks info from even severely damaged documents
• SurePath paper handling reduces manual steps and misfeeds right out of the box and plays well with your existing software.

Services from Kodak Alaris

Our team’s comprehensive knowledge of products and solutions, combined with a keen understanding of your organization, helps you harness the power of big data to make your capture workflow more productive and information management more impactful.

• Expert repair and maintenance services to optimize uptime and productivity
• Highly responsive, world-class field engineers and remote support experts who know your equipment and workflow
• Flexible service plan choices, value-added professional and managed services, and much more

MPS Capture Agent from Kodak Alaris adds value for MPS developers, dealers, and customers and enables synergies with MFPs and service options.

Our-Smart T ouch technology

Discover, extract, and share scanner data

Deliver to databases and applications, including Enterprise Content Management (ECM) systems and Microsoft SharePoint

Enables easy information capture from scanning, smart devices and digital files (excluding email) from one application

Flexible file creation options (such as PDF, vPDF, Microsoft Word, TIFF, WPG, BMP)

Expert repair and maintenance services to optimize uptime and productivity

Reduce errors, rework, and business risks with the world’s most accurate information capture technology

KEYPRESS INTELLIGENCE - BUYERS LABORATORY (BLI).

From award-winning scanners and capture software to industry-leading service, Kodak Alaris transforms documents and data into information better than anyone else, bringing you:

• Speed – Boost your bottom line with cost-saving efficiency and reliability plus innovative solutions to power every facet of your digital transformation
• Accuracy – Reduce errors, rework, and business risks with the world’s most accurate information capture technology
• Profitability – Boost your bottom line with cost-saving efficiency and reliability plus innovative solutions to power every facet of your digital transformation

That’s not just our opinion—it’s an award-winning fact. Our proven track record for excellence has made Kodak Alaris the most awarded scanner manufacturer in the 62-year history of Keypoint Intelligence - Buyers Laboratory (BLI).

Find out how we make the journey from document to process faster, accurate, and easy at AlarisWorld.com
