Kodak i4000 Series Scanners

Built to stay busy
Flawless Information Capture for Big Jobs

Your busy mailroom, production department or service bureau needs the most productive, accurate, and reliable information capture on the market. The i4000 Series Scanners are the right fit for your most demanding jobs.

Designed to keep pace with how work is done today

The i4000 Series offers a host of features combined with our exceptional image quality to help you deliver high productivity.

Get crisp, clear images even with challenging originals, thanks to Perfect Page image processing. And Dual LED technology produces high OCR read rates for even better data extraction precision with no loss of scanning speed.

Flawless integration that saves time and money

The i4000 delivers business value by finding the fastest, most efficient ways to enhance your workflows. With multi-zone barcode recognition, the driver reads barcode values to extract metadata, enabling easy integration with line-of-business systems.

Combine the scanner with Kodak Info Input Solution web capture software and you can manage applications, job setups, and users, as well as capture and index all from a centralized capture location.

Dependable expertise to empower any business

Our exclusive paper feeding technology captures virtually any document in almost any condition for unbeatable reliability. The i4000 has four layers of document protection to safeguard your important documents.

- Length detection protects against papers getting overlapped and appearing as one long document
- Double document detection also ensures that only one document enters the scanner at a time, which is especially helpful when a small document sticks together with a larger document
- Intelligent document protection “listens” for a telltale crumpling sound and immediately stops the scanning process
- Metal detection prevents forgotten staples and paper clips from scratching the scanner glass

Effortless user experience

Kodak Alaris delivers intuitive interfaces, one-touch buttons scanning, and other ease-of-use features, for a simplified user experience.

Smart Touch technology uses one-touch for frequently used scan tasks such as scanning onboarding applications or accounts payable invoices. You can preprogram jobs to automatically scan hard copies and save them as searchable PDFs, enabling you to easily search for information in the future.

Adaptable solutions for your ever-changing workplace

Software:

Kodak Capture Pro Software, when combined with scanners from Kodak Alaris, provide intelligent capabilities that increase productivity and improve efficiency:

- **Intelligent Exception Processing** ensures immediate validation of forms so any missed information at the point of transaction is identified and fixed, resulting in better customer interactions and greater potential to drive revenue
- **Intelligent Barcode Reading** produces the most accurate data extraction results and takes complexity out of the set-up process

Services:

Get the best possible performance from your scanners and software with a full range of world-class service and support options to protect your investment and keep productivity at peak levels.
Proven real-world performance.

Over a million multi-page invoices a year digitized, managed and distributed—achieving huge cost savings—using a Kodak i4000 Series Scanner by a global package delivery firm.

Over 3,000 patient visits a day tracked and recorded using a Kodak i4000 Series Scanner and automatic indexing to significantly reduce labor and improve access to accurate medical records by a healthcare services company.

50,000 rental agreements converted—many of which are old, yellowed and tattered—into sharp, clear digital images using a Kodak i4000 Series Scanner with Perfect Page image processing by a large property management company.

Full-rated speed, even with all image processing features running—auto orientation, duplex, de-skew, color dropout, auto crop, dual-stream output and more

For a further boost in productivity, the scanner will hold all multi-feed pages together at the exit rollers for review by the operator so you can choose to ignore, accept or rescan images

Handle ever-increasing paper volumes within shorter timeframes with the 500-sheet input elevator, featuring continuous, non-stop document feeding

Exception handling with straight-through rear exit allows materials such as cardboard, file folders, and extra-long documents to feed through the scanner

Easily add the ability to scan bound, oversized, and fragile documents with the optional Legal Size and A3 Flatbed accessories

IN2 Ecosystem

Today’s complex data environment needs an integrated approach to information capture. The IN2 Ecosystem delivers the best information capture solution for your business with industry-leading scanners, software, and services delivered by a network of trusted partners.

IN2 Ecosystem gives you the:

- **Right Fit:** Solutions to fit your business goals, environment, and budget
- **Right Experience:** Solutions that simplify your work—from acquisition through operation and ownership
- **Right Results:** Solutions that deliver superior business value through fast, accurate, reliable information capture

### Shared features

- **Acoustical Noise** (operator position sound pressure level): Standby: <40 dB(A); Scanning: <63 dB(A)
- **Power Consumption**: Off/Standby/Sleep mode: <0.5 watts; Running: <21 watts; Idle: <14 watts
- **Feeder Capacity**: Up to 500 sheets (20 lb. / 80 g/m²) paper; handles small documents such as ID cards, embossed hard cards, business cards, and insurance cards
- **Connectivity**: USB 3.3.1 Certified
- **Dimensions**:
  - Height: 34.79 cm (13.7 in.)
  - Width: 48.9 cm (19.2 in.)
  - Depth: 46.73 cm (18.4 in.) - with tray closed
  - Depth: 61.30 cm (24.1 in.) - with tray open
- **Electrical Requirements**: 100-240 V (international), 50/60 Hz
- **Environmental Factors**: EPEAT Silver; ENERGY STAR qualified scanners
- **Software Support**:
  - Standard Software - WINDOWS bundled software: TWAIN, ISIS, WIA Drivers; Smart Touch, and **Kodak Capture Pro Software Limited Edition** (via web download)
  - Optional Software: **Kodak Capture Pro Software**, **Kodak Info Input Solution** (Windows only), Asset Management Software
