Hard-working, easy-to-use software

Smart Touch:

Ideal for ad hoc document capture and output to a file, email, printer or MICROSOFT SHAREPOINT

- Bundled with select scanners from Kodak Alaris
- Output documents in a variety of file formats
- Easily configure locations, then scan with one touch

Capture Pro:

Kodak Capture Pro Software is the complete capture software application that allows you to scan, process, utilize, and manage documents and important data from those documents. Get powerful, flexible and affordable batch capture with **Kodak** Scanners—and scanners from other popular manufacturers—in desktop to high volume production environments.

Info Input Solution:

Kodak Info Input Solution enables faster capture and access to information—at the office or remotely. Info Input Solution is a web-based and mobile capture application that is easy for workers across departments and enterprises to implement and use. Info Input offers high-speed scanning with real-time image display, indexing, and bar code detection.

Production capture that makes sense

Processes large volumes with smart scanning technology that streamlines operations
