

Gain visibility and control of your data capture environment

Are you in the dark over the true state and cost of your data capture assets?

Here's how you can take back control with our Managed Content Services.

Problem of different budget accountability through fragmented ownership

This problem is compounded by constantly adding new devices; monitoring, managing, controlling and improving is difficult

It results in unknown costs of total ownership

Consolidated control and asset management let you see the full picture with no operational headaches

Streamline processes with improved optimization to gain productivity efficiencies and effectiveness

Benefit from enhanced customer services, achieve SLA targets, enjoy improved TCO, and have happier staff and customers

How do you achieve sustainable business benefits?

Our Managed Content Services can give you a better understanding of your total imaging costs, provide control across your entire asset infrastructure, enhance efficiency and effectiveness, improve SLAs and drives real sustainable savings.

1 Assess

Our experts uncover valuable process insights, ensuring that your capture infrastructure delivers the highest productivity and value for your business.

2 Optimize

Based on our recommendations about optimizing your imaging processes and capture infrastructure, we will help you implement the changes and support your organization to achieve your business objectives.

- ★ We provide vendor agnostic maintenance and management services as well as a supply of new devices and life cycle management
- ★ Asset tracking, asset register and asset management are part of our service

3 Manage

We dynamically manage your capture solutions, improve your workflow and bring greater profitability to your business. We deliver the right fit, right experience and right results.

- ★ We provide you with integrated, cost-effective consumables and supplies management
- ★ All maintenance is included from technical and preventative to disaster recovery services

Your challenge. Our solution

If you would like to gain visibility and control, now is the time to talk
